OVERVIEW

Our Business

Concretex SA manufactures precast concrete infrastructural products in Berlin Industrial, East London, Eastern Cape. Concretex SA is in the process of expanding and creating an extensive network of factories throughout South Africa. Concretex SA can design and manufacture special products. This is made possible through the technical expertise and quality controls the company has in place after many years experience in the pre-cast concrete field.

Business works

Concretex SA has developed the mobile plant concept, which involves the manufacture of products on site in order to minimize transport costs. Although the products are not manufactured in the "factory environment", the attention to quality is not neglected. The SABS guidelines to product quality and manufacture are adhered to, and where possible, the "Standardization Mark" will be applied to the products.

Vision & Mission

Mission: To enhance quality of life through engineering and manufacturing high quality precast concrete infrastructural products.

Vision: To be the Number 1 precast concrete infrastructural product specialist in Southern Africa.

KEY SERVICES

Concretex products inherit over 40 years of experience in the precast concrete industry. With products spanning security fencing, housing and sanitation we have experience across a variety of sectors in providing products that are suited to the African environment.

CIVIL ENGINEERING ROAD CONCRETE PRODUCTS

The Concretex SA Precast Concrete Road building products that seek to create an innovation, easy to work with products that can withstand the harsh environments.

BUILDING CONCRETE PRODUCTS

The Concretex SA Precast Concrete Building products that are specialized and design unique to the customer.

SANITATION CONCRETE PRODUCTS

The Concretex SA Precast Concrete Toilet unit is a cost effective solution to one of the essential needs in South Africa's high-density urban and rural communities.

OTHER SERVICES & PRODUCTS

Our experience as both manufacturers and contractors allows us to offer a range of **concrete products** that serve many markets.

At ConcretexSA we pride ourselves on producing quality products developed to address our customer needs, In the South African context, this has evolved into a product portfolio that is geared strongly towards addressing the needs of our communities.

ConcretexSA solutions for sanitation, security fencing and housing allow the development of community while at the same time restoring dignity through enabling service delivery. In partnership with local municipalities and working together with key stakeholders, ConcretexSA has a long history of service delivery.

OUR PRODUCTS

Currently, ConcretexSA produces and offers a range of **concrete products** that serve markets not only in the Cape but throughout South Africa and the SADC community.

Stormwater Pipes & Culverts

Pipes and culverts suitable for the conveyance of stormwater, with ability to withstand the load stress road infrastructure must handle.

Kerbing & Channeling

Manufacturing of quality kerbing and channeling in the factory and on site.

Ready Mix Concrete

We have ready mix trucks with the ability to setup mobile batching plant anywhere in the country.

Plain Vibracrete Walling

Precast panel 'Vibracrete' walls to provide a stronger, lighter support for pre-cast walls.

Block, Brick and Pavers

Block, brick and paver making plant that can manufacture up to 10,000 blocks per day.

Concrete Palisade Fencing

Concretex SA palisade fencing provides increased security and high visibility

ABT Housing Units

Alternative Building System is a modular building technology using custom lightweight concrete panels

Grease & Oil

Separators, filters and purifiers for Grease, Oil and Petrochemical contamination of water.

Waterborne & Pour Flash Leach Pit Toilet

Toilets for schools and households that are convenient, hygienic, free from bad smells and flies

OPERATING PHILOSOPHY & VALUES

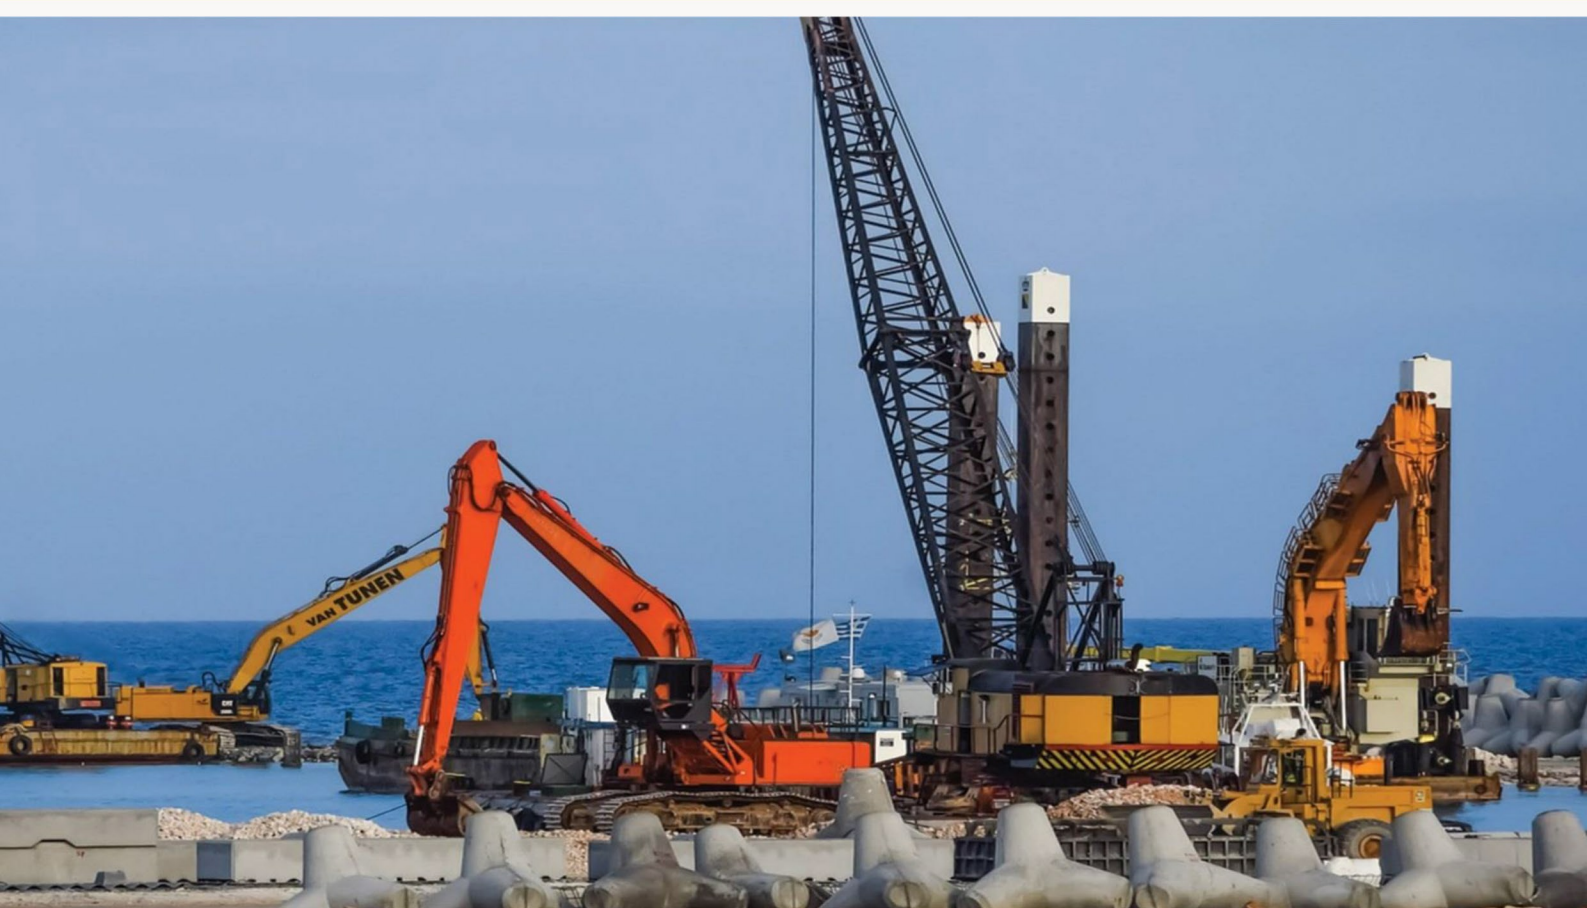

People remain our most valuable asset, and the safety of employees and stakeholders is not negotiable. We believe that our people and others impacted by our activities are entitled to a safe healthy and productive life in harmony with nature.

Quality and Efficiency has always formed the foundation of all our operations, projects and contracts. We are committed to provide quality of service and this is acknowledged by our clients.

Customers – are entitled to quality products that are safe and healthy and are in harmony with nature.

Innovations is one of the core principles of ConcretexSA, which is always testing and experimenting new technologies that ensure a solid, healthy and environmentally friendly structure.

Brand Development - We strive to be the market leader in sustainable building solutions that also offer mutually beneficial human, time and other resource innovations in South Africa, and SADC region.

PRECAST CONCRETE PRODUCT SPECIALISTS IN SOUTHERN AFRICA

ConcretexSA provides innovative precast solutions in the areas of **sanitation and infrastructure** that ensure quick, efficient service delivery while ensuring quality control not available outside of a factory environment.
